Hood

Hood for MotionProtect Outdoor

The Hood from Ajax Systems, Hood for MotionProtect Outdoor protects sensors of the anti-masking system from rain and snow.

Besides intruders, snow can interfere with the regular operation of the detector. It may stick to anti-masking sensors, block their field of view, and cause a false alarm. Hood protects MotionProtect Outdoor during a snowfall.

Anti-masking sensors react to spray paint. But an extended exposure to heavy rain may create interference. Hood protects MotionProtect Outdoor during a thunderstorm to avoid any disturbance related to false alarms.

Hood can be attached to MotionProtect Outdoor without dismantling the detector from the bracket. The accessory comes with everything you'll need for installation.

- Hood for MotionProtect Outdoor
- Protects Sensors
- Easy & Quick Set Up

Specification

Classification	Hood for MotionProtect Outdoor
Mounting method	Dual Lock tape
Material	Polycarbonate
Operating temperature range	From -25°C to +60°C
Operating humidity	Up to 100%
Dimensions	110 × 96 × 90 mm
Weight	71 g
Warranty	Replacement and repair within 24 months of the date of sale. If the device does not function properly, we recommend that you first contact the support service as technical issues can be resolved remotely in half of the cases!
Complete set	Hood for MotionProtect Outdoor Dual Lock tape Quick Start Guide
